

✦ Mini Hackathon ✦

All pages must be responsive!!!

Make sure every webpage has a consistent setup: the same navbar, info section, and a footer

Navbar:

On the left:

Put "your web page title" in big letters and link it back to the homepage.

On the right:

Add links to Home, About, Why Us, Team, and Login.

You can use bootstrap for additional points .

Info Section:

Address : (Location, Phone Number, Email, Social media links).

Info : A short description of the website (no more than 30 words).

Links : Has the same links as the navbar .

A spot for people to subscribe : contains an email box and a button.

Make it easy to use and understand.

Use Icons ❤️

Footer:

End every page with "© 2024 All Rights Reserved By GDSC ESSTHS."

Make sure everything follows these rules correctly 😊

Home page (devised in two parts):

left part: 1: CRYPTO CURRENCY (titre)

2: Short Paragraph (you can use lorem)

3: A button (read more) : takes you to the same webpage

right part : image (source : Storyset(bonus: apply animations in the image))

AboutUs page :

1: title : About Us

2: one line of the general idea of the web page

3: section devised in two parts :

right part :

- a)title: Your web page title
- b)A short paragraph concerning your webpage
- c) A button (Read more) takes you to the same webpage

left part:

image : (source : assets folder)
